Revised Public Notice to Extend Comment Period For Proposed LNG Terminal

CONCORD, Mass. – Based upon requests received during public hearings held on Dec. 14 and Dec. 15, 2005 associated with the permit application filed by Weaver's Cove Energy, LLC and Mill River Pipeline, LCC, the U.S. Army Corps of Engineers has extended its public comment period to Feb. 8, 2006. The extension would allow the public additional time to prepare written comments regarding the application.

Weaver's Cove Energy, LLC and Mill River Pipeline, LCC are seeking a permit from the U.S. Army Corps of Engineers to conduct dredging in an existing federal navigation channel, install structures and discharge fill material in wetlands and waterways for the construction of a liquefied natural gas (LNG) import terminal and natural gas pipeline facilities in Fall River, Mass. The LNG terminal would be located on a 73-acre site adjacent to the Taunton River primarily at One New Street in the city of Fall River.

For more information on this project or to view the transcripts from the public hearings, please go to <http://www.nae.usace.army.mil/projects/ma/weaverscove/weaverscove.htm>.

Public comments referencing this permit request (File # NAE-2004-2355) should be forwarded to this office no later than Feb. 8, 2006. The address is the U.S. Army Corps of Engineers, New England District, Regulatory Division (ATTN: Ted Lento), 696 Virginia Road, Concord, MA 01742-2751. Additional information is available from Permit Project Manager Ted Lento at 978-318-8863, or toll free at 800-362-4367 (if calling from within Massachusetts), or 800-343-4789 (if calling from outside of Massachusetts).
